Stainless Steel brackets - fit and forget

Heavy Duty - Max. user weight 320Kg. (50 Stone)

**Unique 'Sideloc' Buffers eliminate twist
& slide, ensuring total stability & safety**

Fits all standard toilets

SafeTseat™

Stainless Steel adjustable brackets with Free assembly tool, for quick and easy 'Fit & Forget' installation to all standard toilet pans.

Anti Bacterial Polygiene® thermoset material uses Silver ion technology to ensure lasting protection between regular cleaning operations.

Five Year Warranty, for guaranteed durability and value.

Extra Heavy Duty - Ideal for everyone, from 20Kg to 320Kg! Perfect for wheelchair users, Care Homes, Hospitals, Hotels and Guest Houses.

Twisting & sliding problems, inherent with normal seats, are totally eliminated by the SafeTseat's adjustable 'Sidelock' Buffers, preventing falls and trapped skin and promoting a feeling of stability and security.

You can cut your maintenance costs and improve Health and Safety by fitting the unique SafeTseat.
